Logo: **mkt** medienkultur- und kunsttheorien

A vintage black and white photograph of a young man in a military-style uniform, standing with hands on hips. The photo is being held by a hand against a red background. A bicycle is partially visible on the left.

Media Cultures and Art Theory (German acronym **MKKT**) is a transdisciplinary scientific master programme (4 semesters) that is offered on a trans-institutional basis and composed of the disciplines Media Theory, Art History/Art Theory, Gender Studies und Cultural Studies. The curriculum analyses, historically anchors and discusses the relations of media-based, artistic and cultural forms of expression and application and their perception. In the process, theory and practice as well as methods of analysis, investigation and design are interlinked while artistic-scientific research is explored. The courses are predominantly held in the German language.
